

Puzzle Solving

Responsibility: Time Management

Instructions:

- Teacher divides the class into groups of four.

Part A:

- Teacher asks students to brainstorm on the title ‘Why time management is important to students?’
- Students discuss in a group.
- Teacher discusses the ideas as a class.

Part B:

- Teacher gives each group a jigsaw puzzle to solve.
- A time limit is given for students to solve the puzzle.
- The students have no idea what the end image is like.
- The first group to solve wins.
- After all the groups have completed the jigsaw mission, they are given some questions to discuss:
 - Is there a timekeeper in the group?
 - How did they divide the task?
 - Is it harder to solve a jigsaw puzzle without the end image in mind?
 - What is the aim of the activity?
