

Infographic Presentation (via PowerPoint)
Responsibility: Technological Advancement and Ethics in Use of Gadgets

Instructions:

- Teacher allows the students to choose their own groups (groups may have four or five students).
- Teacher asks students to prepare a PowerPoint presentation on a given topic related to technology, gadgets or technological advancement.
- Students are given time to prepare.
- Students to present in their findings in the form of infographic using PowerPoint.
- Students from other groups are encouraged to give their opinions after each presentation.

Examples of topics:

Artificial Intelligence

Ethics in Use of Gadgets

The Evolution of Computers

How to be A Good Digital Citizen

Wacky Tech Inventions
