

Spin-N-Think
Love: Sustain Environmental Balance

Instructions:

- Teacher will prepare a spinning wheel with the names of the students in the class. (This can be done in groups as well.)
- Each student will take turns to spin the wheel.
- The name which the arrow points to will have to randomly pick a question card and answer the question written on it.
- Take turns to spin the wheel until all students have had a chance to answer a question each.

Example of question cards:

Do you sort your trash by items? Why?	What are the 5 R's of recycling?
List two things that cannot be recycled.	Define renewable resources.
What is solar energy?	Do you boil your drinking water at home? Why?
What do you think of electric cars?	Does the countryside have cleaner air? Why?
